

Full Dataset Investigation Report

Generated 2026-09-14T17:22:01.066138 UTC by Vikram Nair (ADMIN01)

Executive Summary

This report covers 22 subject(s) and 89 detected relationship record(s) (counted per subject), of which 32 are high-confidence. All findings are investigative leads derived from cross-source evidence correlation and require human verification before any action is taken.

Subject Profiles

Arjun Mehta (C001)

Case: NX-0241 | Crime type: Fraud | Status: Under Investigation

Age: 34 Phone: 9876543210 Address: 12 MG Road

Reliability: 63%

Arjun Mehta (34, Fraud) is linked to case NX-0241. Cross-source analysis identified 7 associated entities: 2 high-confidence, 2 medium-confidence, and 3 low-confidence link(s). The strongest connection is to Rahul Kapoor (100% confidence), supported by: Co-Accused (Same Case), Colleague, Financial Transfer, Mentioned Together in Report, Reported Association, Shared Residence / Location, Shared Vehicle Use.

Ravi Sharma (C002)

Case: NX-0241 | Crime type: Fraud | Status: Under Investigation

Age: 38 Phone: 9988776655 Address: 45 Whitefield Main Rd

Reliability: 68%

Ravi Sharma (38, Fraud) is linked to case NX-0241. Cross-source analysis identified 8 associated entities: 3 high-confidence, 1 medium-confidence, and 4 low-confidence link(s). The strongest connection is to Suresh Iyer (100% confidence), supported by: Colleague, Direct Contact (Call / SMS), Financial Transfer, Reported Association, Shared Vehicle Use. Ravi Sharma acts as a bridge entity, connecting otherwise separate clusters of subjects - a high-value node for further investigation. 1 connection(s) involve unresolved identifiers (unknown numbers/accounts/vehicles) that have not yet been matched to a known subject.

Neha Rao (C003)

Case: NX-0198 | Crime type: Money Laundering | Status: Under Investigation

Age: 29 Phone: 9123456780 Address: 12 MG Road

Reliability: 51%

Neha Rao (29, Money Laundering) is linked to case NX-0198. Cross-source analysis identified 6 associated entities: 1 high-confidence, 2 medium-confidence, and 3 low-confidence link(s). The strongest connection is to Rohit Malhotra (100% confidence), supported by: Co-Accused (Same Case), Colleague, Financial Transfer, Mentioned Together in Report, Reported Association, Shared Residence / Location.

Suresh Iyer (C004)

Case: NX-0172 | Crime type: Extortion | Status: Under Investigation

Age: 41 Phone: 9345678901 Address: 78 Marathahalli Ring Rd

Reliability: 82%

Suresh Iyer (41, Extortion) is linked to case NX-0172. Cross-source analysis identified 4 associated entities: 2 high-confidence, 0 medium-confidence, and 2 low-confidence link(s). The strongest connection is to Ravi Sharma (100% confidence), supported by: Colleague, Direct Contact (Call / SMS), Financial Transfer, Reported Association, Shared Vehicle Use. 1 connection(s) involve unresolved identifiers (unknown numbers/accounts/vehicles) that have not yet been matched to a known subject.

Karan Verma (C005)

Case: NX-0311 | Crime type: Drug Trafficking | Status: Under Investigation

Age: 45 Phone: 9001122334 Address: 78 Jayanagar 4th Block

Reliability: 90%

Karan Verma (45, Drug Trafficking) is linked to case NX-0311. Cross-source analysis identified 2 associated entities: 2 high-confidence, 0 medium-confidence, and 0 low-confidence link(s). The strongest connection is to Vikram Das (100% confidence),

supported by: Co-Accused (Same Case), Direct Contact (Call / SMS), Financial Transfer, Mentioned Together in Report, Reported Association, Shared Residence / Location, Shared Vehicle Use. Notably, Karan Verma's own case notes state no associates are known, yet cross-source analysis surfaced 2 hidden connection(s) not explicitly recorded anywhere in the source text - exactly the kind of lead NexTrace is designed to surface.

Priya Nair (C006)

Case: NX-0241 | Crime type: Fraud | Status: Under Investigation

Age: 31 Phone: 9765432109 Address: 56 Koramangala 5th Block

Reliability: 61%

Priya Nair (31, Fraud) is linked to case NX-0241. Cross-source analysis identified 7 associated entities: 1 high-confidence, 1 medium-confidence, and 5 low-confidence link(s). The strongest connection is to Sneha Joshi (100% confidence), supported by: Co-Accused (Same Case), Colleague, Direct Contact (Call / SMS), Financial Transfer, Reported Association, Shared Residence / Location.

Manoj Pillai (C007)

Case: NX-0172 | Crime type: Extortion | Status: Under Investigation

Age: 36 Phone: 9556677889 Address: 45 Whitefield Main Rd

Reliability: 75%

Manoj Pillai (36, Extortion) is linked to case NX-0172. Cross-source analysis identified 2 associated entities: 1 high-confidence, 1 medium-confidence, and 0 low-confidence link(s). The strongest connection is to Suresh Iyer (100% confidence), supported by: Co-Accused (Same Case), Colleague, Direct Contact (Call / SMS), Financial Transfer, Mentioned Together in Report, Reported Association.

Divya Menon (C008)

Case: NX-0455 | Crime type: Cyber Fraud | Status: Under Investigation

Age: 33 Phone: 9445566778 Address: 23 HSR Layout Sector 2

Reliability: 82%

Divya Menon (33, Cyber Fraud) is linked to case NX-0455. Cross-source analysis identified 4 associated entities: 3 high-confidence, 0 medium-confidence, and 1 low-confidence link(s). The strongest connection is to Anjali Bhatt (100% confidence), supported by: Co-Accused (Same Case), Colleague, Direct Contact (Call / SMS), Financial Transfer, Mentioned Together in Report, Reported Association.

Vikram Das (C009)

Case: NX-0311 | Crime type: Drug Trafficking | Status: Under Investigation

Age: 40 Phone: 9334455667 Address: 78 Jayanagar 4th Block

Reliability: 79%

Vikram Das (40, Drug Trafficking) is linked to case NX-0311. Cross-source analysis identified 3 associated entities: 1 high-confidence, 1 medium-confidence, and 1 low-confidence link(s). The strongest connection is to Karan Verma (100% confidence), supported by: Co-Accused (Same Case), Direct Contact (Call / SMS), Financial Transfer, Mentioned Together in Report, Reported Association, Shared Residence / Location, Shared Vehicle Use.

Anjali Bhatt (C010)

Case: NX-0455 | Crime type: Cyber Fraud | Status: Under Investigation

Age: 28 Phone: 9223344556 Address: 89 Malleswaram 8th Cross

Reliability: 86%

Anjali Bhatt (28, Cyber Fraud) is linked to case NX-0455. Cross-source analysis identified 2 associated entities: 1 high-confidence, 1 medium-confidence, and 0 low-confidence link(s). The strongest connection is to Divya Menon (100% confidence), supported by: Co-Accused (Same Case), Colleague, Direct Contact (Call / SMS), Financial Transfer, Mentioned Together in Report, Reported Association.

Rahul Kapoor (C011)

Case: NX-0241 | Crime type: Fraud | Status: Under Investigation

Age: 27 Phone: 9112233445 Address: 12 MG Road

Reliability: 62%

Rahul Kapoor (27, Fraud) is linked to case NX-0241. Cross-source analysis identified 8 associated entities: 2 high-confidence, 1 medium-confidence, and 5 low-confidence link(s). The strongest connection is to Arjun Mehta (100% confidence), supported by:

Co-Accused (Same Case), Colleague, Financial Transfer, Mentioned Together in Report, Reported Association, Shared Residence / Location, Shared Vehicle Use. Rahul Kapoor acts as a bridge entity, connecting otherwise separate clusters of subjects - a high-value node for further investigation.

Sneha Joshi (C012)

Case: NX-0241 | Crime type: Fraud | Status: Under Investigation

Age: 30 Phone: 9887766554 Address: 56 Koramangala 5th Block

Reliability: 45%

Sneha Joshi (30, Fraud) is linked to case NX-0241. Cross-source analysis identified 7 associated entities: 1 high-confidence, 0 medium-confidence, and 6 low-confidence link(s). The strongest connection is to Priya Nair (100% confidence), supported by: Co-Accused (Same Case), Colleague, Direct Contact (Call / SMS), Financial Transfer, Reported Association, Shared Residence / Location.

Farhan Ali (C013)

Case: NX-0509 | Crime type: Human Trafficking | Status: Under Investigation

Age: 39 Phone: 9776655443 Address: 34 Electronic City Phase 1

Reliability: 92%

Farhan Ali (39, Human Trafficking) is linked to case NX-0509. Cross-source analysis identified 1 associated entity: 1 high-confidence, 0 medium-confidence, and 0 low-confidence link(s). The strongest connection is to Meera Krishnan (100% confidence), supported by: Co-Accused (Same Case), Co-located (CCTV), Colleague, Financial Transfer, Mentioned Together in Report, Reported Association, Shared Residence / Location. Notably, Farhan Ali's own case notes state no associates are known, yet cross-source analysis surfaced 1 hidden connection(s) not explicitly recorded anywhere in the source text - exactly the kind of lead NexTrace is designed to surface.

Meera Krishnan (C014)

Case: NX-0509 | Crime type: Human Trafficking | Status: Under Investigation

Age: 35 Phone: 9665544332 Address: 34 Electronic City Phase 1

Reliability: 100%

Meera Krishnan (35, Human Trafficking) is linked to case NX-0509. Cross-source analysis identified 1 associated entity: 1 high-confidence, 0 medium-confidence, and 0 low-confidence link(s). The strongest connection is to Farhan Ali (100% confidence), supported by: Co-Accused (Same Case), Co-located (CCTV), Colleague, Financial Transfer, Mentioned Together in Report, Reported Association, Shared Residence / Location.

Aditya Rao (C015)

Case: NX-0620 | Crime type: Weapons Trafficking | Status: Under Investigation

Age: 32 Phone: 9554433221 Address: 67 Banashankari 2nd Stage

Reliability: 56%

Aditya Rao (32, Weapons Trafficking) is linked to case NX-0620. Cross-source analysis identified 2 associated entities: 0 high-confidence, 1 medium-confidence, and 1 low-confidence link(s). The strongest connection is to Vikram Das (60% confidence), supported by: Direct Contact (Call / SMS), Mentioned Together in Report, Reported Association. 1 connection(s) involve unresolved identifiers (unknown numbers/accounts/vehicles) that have not yet been matched to a known subject.

Kavita Menon (C016)

Case: NX-0455 | Crime type: Cyber Fraud | Status: Under Investigation

Age: 26 Phone: 9443322110 Address: 23 HSR Layout Sector 2

Reliability: 78%

Kavita Menon (26, Cyber Fraud) is linked to case NX-0455. Cross-source analysis identified 2 associated entities: 1 high-confidence, 1 medium-confidence, and 0 low-confidence link(s). The strongest connection is to Divya Menon (100% confidence), supported by: Co-Accused (Same Case), Co-located (CCTV), Colleague, Direct Contact (Call / SMS), Financial Transfer, Mentioned Together in Report, Reported Association, Shared Residence / Location.

Rohit Malhotra (C017)

Case: NX-0198 | Crime type: Money Laundering | Status: Under Investigation

Age: 44 Phone: 9332211009 Address: 12 MG Road

Reliability: 63%

Rohit Malhotra (44, Money Laundering) is linked to case NX-0198. Cross-source analysis identified 7 associated entities: 2

high-confidence, 0 medium-confidence, and 5 low-confidence link(s). The strongest connection is to Neha Rao (100% confidence), supported by: Co-Accused (Same Case), Colleague, Financial Transfer, Mentioned Together in Report, Reported Association, Shared Residence / Location. Rohit Malhotra acts as a bridge entity, connecting otherwise separate clusters of subjects - a high-value node for further investigation.

Ishaan Bose (C018)

Case: NX-0733 | Crime type: Smuggling | Status: Under Investigation

Age: 37 Phone: 9221100998 Address: 90 Yelahanka New Town

Reliability: 20%

Ishaan Bose (Smuggling, case NX-0733) currently shows no detected connections across any evidence source. This may indicate an independent actor, or that linking evidence has not yet been ingested.

Sanjay Kulkarni (C019)

Case: NX-0655 | Crime type: Illegal Betting | Status: Under Investigation

Age: 48 Phone: 9887711223 Address: 12 Rajajinagar 1st Block

Reliability: 98%

Sanjay Kulkarni (48, Illegal Betting) is linked to case NX-0655. Cross-source analysis identified 3 associated entities: 3 high-confidence, 0 medium-confidence, and 0 low-confidence link(s). The strongest connection is to Meenal Desai (100% confidence), supported by: Co-Accused (Same Case), Co-located (CCTV), Direct Contact (Call / SMS), Financial Transfer, Mentioned Together in Report. Sanjay Kulkarni acts as a bridge entity, connecting otherwise separate clusters of subjects - a high-value node for further investigation. Notably, Sanjay Kulkarni's own case notes state no associates are known, yet cross-source analysis surfaced 3 hidden connection(s) not explicitly recorded anywhere in the source text - exactly the kind of lead NexTrace is designed to surface.

Meenal Desai (C020)

Case: NX-0655 | Crime type: Illegal Betting | Status: Under Investigation

Age: 34 Phone: 9776612345 Address: 45 Rajajinagar 2nd Block

Reliability: 82%

Meenal Desai (34, Illegal Betting) is linked to case NX-0655. Cross-source analysis identified 4 associated entities: 2 high-confidence, 0 medium-confidence, and 2 low-confidence link(s). The strongest connection is to Sanjay Kulkarni (100% confidence), supported by: Co-Accused (Same Case), Co-located (CCTV), Direct Contact (Call / SMS), Financial Transfer, Mentioned Together in Report. Meenal Desai acts as a bridge entity, connecting otherwise separate clusters of subjects - a high-value node for further investigation. Notably, Meenal Desai's own case notes state no associates are known, yet cross-source analysis surfaced 4 hidden connection(s) not explicitly recorded anywhere in the source text - exactly the kind of lead NexTrace is designed to surface. 2 connection(s) involve unresolved identifiers (unknown numbers/accounts/vehicles) that have not yet been matched to a known subject.

Imran Sheikh (C021)

Case: NX-0655 | Crime type: Illegal Betting | Status: Under Investigation

Age: 42 Phone: 9665511224 Address: 78 Rajajinagar 3rd Block

Reliability: 95%

Imran Sheikh (42, Illegal Betting) is linked to case NX-0655. Cross-source analysis identified 2 associated entities: 2 high-confidence, 0 medium-confidence, and 0 low-confidence link(s). The strongest connection is to Sanjay Kulkarni (95% confidence), supported by: Co-Accused (Same Case), Direct Contact (Call / SMS), Financial Transfer, Mentioned Together in Report. Notably, Imran Sheikh's own case notes state no associates are known, yet cross-source analysis surfaced 2 hidden connection(s) not explicitly recorded anywhere in the source text - exactly the kind of lead NexTrace is designed to surface.

Arun Mehta (C022)

Case: NX-0241 | Crime type: Fraud | Status: Under Investigation

Age: 34 Phone: - Address: 12 MG Road

Reliability: 32%

Arun Mehta (34, Fraud) is linked to case NX-0241. Cross-source analysis identified 7 associated entities: 0 high-confidence, 2 medium-confidence, and 5 low-confidence link(s). The strongest connection is to Arjun Mehta (57% confidence), supported by: Co-Accused (Same Case), Colleague, Shared Residence / Location.

Potential Pattern Findings

[Medium] Bridge Entity

Meenal Desai connects two or more otherwise-separate clusters of subjects, making them a high-value node for further investigation.

[Medium] Bridge Entity

Rohit Malhotra connects two or more otherwise-separate clusters of subjects, making them a high-value node for further investigation.

[Medium] Bridge Entity

Sanjay Kulkarni connects two or more otherwise-separate clusters of subjects, making them a high-value node for further investigation.

[Medium] Potential Coordinated Activity Across Cases

Arjun Mehta (case NX-0241) and Neha Rao (case NX-0198) are linked via Colleague, Reported Association, Shared Residence / Location, suggesting the two investigations may be connected.

[High] Potential Coordinated Activity Across Cases

Ravi Sharma (case NX-0241) and Suresh Iyer (case NX-0172) are linked via Colleague, Direct Contact (Call / SMS), Financial Transfer, Reported Association, Shared Vehicle Use, suggesting the two investigations may be connected.

[Medium] Potential Coordinated Activity Across Cases

Ravi Sharma (case NX-0241) and Manoj Pillai (case NX-0172) are linked via Colleague, Reported Association, Shared Residence / Location, suggesting the two investigations may be connected.

[Medium] Potential Coordinated Activity Across Cases

Neha Rao (case NX-0198) and Priya Nair (case NX-0241) are linked via Colleague, Financial Transfer, Reported Association, suggesting the two investigations may be connected.

[High] Potential Coordinated Activity Across Cases

Karan Verma (case NX-0311) and Divya Menon (case NX-0455) are linked via Co-located (CCTV), Direct Contact (Call / SMS), Mentioned Together in Report, Reported Association, suggesting the two investigations may be connected.

[Medium] Potential Coordinated Activity Across Cases

Vikram Das (case NX-0311) and Aditya Rao (case NX-0620) are linked via Direct Contact (Call / SMS), Mentioned Together in Report, Reported Association, suggesting the two investigations may be connected.

[High] Potential Coordinated Activity Across Cases

Rohit Malhotra (case NX-0198) and Sanjay Kulkarni (case NX-0655) are linked via Direct Contact (Call / SMS), Financial Transfer, Mentioned Together in Report, suggesting the two investigations may be connected.

[High] Large Transfer to Unidentified Account

Rs. 500,000 was transferred from account ACC10020 to ACC99999, which does not match any known subject - a potential mule account or untraced fund flow.

Provenance

Every relationship above is traceable to specific source records (call detail records, financial transaction logs, CCTV sighting metadata, or investigation report narratives). Use the Evidence Repository in the application to inspect raw source rows.

Automated analysis provides investigative leads and evidence organization. It does not independently establish guilt or culpability. All confidence scores reflect the strength and consistency of available evidence and record matching.
